DIN EN 61968-4:2008-08

Teil 4: Schnittstellen für Berichtswesen und Asset Management (IEC 61968-4:2007); Deutsche Fassung
EN 61968-4:2007, Text Englisch, Berichtigung zu DIN EN 61968-4:2007-12

This Part of IEC 61968 specifies the information content of a set of message types that can be used to support many of the business functions related to records and asset management. Typical uses of the message types defined in this Part of IEC 61968 include network extension planning, copying
feeder or other network data between systems, network or diagram edits and asset inspection. Message types defined in other Parts of IEC 61968 may also be relevant to these use cases.
