MAINTENANCE Istanbul Facility Management and Maintenance Exhibition 16th-18th April 2015

Datum: Donnerstag, 16. April 2015 (Ganztägig) bis Samstag, 18. April 2015 (Ganztägig)

Technology, developements, special applications and solutions..

Facility managers and the suppliers who present materials,products,solutions and services for the fields of “maintenance” and “sustainability in facilities” will come together at “Maintenance Istanbul 2015 Exhibition” on 16th - 18th April 2015 in Istanbul.
Maintenance technology and modern facility management techniques and systems are extremely important for the economic operability of the industrial,residential and service facilities. Production&operability processes, controlling technology, building protection and maintenance, facility management models,special equipment, certification and risk management systems are all indispensable fields of the sustainibility in facilities.
